

6TH- 10TH JULY 2026

Established in 1984, the Inishbofin Summer School is Ireland's longest-running environmental school. The school, which Galway Atlantaquaria runs, continues to work with the multi-disciplined team, some of which this year includes marine biologists Sibéal Regan and David McCann, ecologist, and artist Gordan D'Arcy, zoologist and science communicator Catherine McCann, archaeologist John O' Halloran, local historian Tommy Burk and award-winning poet, songwriter and children's writer Catherine Ann Cullen.

"Prepare yourself for a week of fun, walking, heritage, learning and meeting new friends, A truly magical experience"

HAVE FUN AND LEARN!

The Summer School is designed around rejuvenating the educational soul, body, mind and spirit through guided field studies, walks, talks and embedding Inishbofin's rich heritage.
